

**CONTEXT-AWARE
& INTELLIGENCE-DRIVEN**

CYBER DEFENCE CENTER

24x7 MDR

- Next-generation AV (NGAV)
- Endpoint Detection & Response (EDR)
- Underground Intelligence
- Network Forensics
- Network Detection & Response (NDR)
- Deceptions Everywhere
- Machine Intelligence
- Cloud Security
- Mobile Threat Defense
- Identity Protection
- Threat Reports
- Remote IR
- Alert Monitoring
- Threat Hunting
- Custom Playbooks
- Automated Remediation
- Automated Containment
- Automated Investigation
- Automated Validation
- Security Analytics

LMNTRIX unifies Machine and Underground Intelligence, NGAV, EDR, NDR, Network Forensics, UEBA and Deception Everywhere for automated attack validation, investigation, containment and remediation on a single platform and at no extra cost is backed by 24/7 Detection and Response for even the smallest security teams.

A single investigative platform for insights into threats on enterprise, cloud, hybrid, and industrial control systems (ICS) networks, LMNTRIX XDR delivers unique advantages over current network security solutions.

A holistic, multi-vector platform with unlimited retention of full-fidelity network traffic, innovative security visualizations, with ease of use and cost-savings of an on-demand deployment model.

It's time you take the upper hand:
